What we deliver:

Identify business pain points in Retail, Hospitality Industry, Industrial Refrigeration and HealthCare that iOT can resolve and provide a roadmap in line with the desired business outcome resulting in a POC/Technology Roadmap to the enterprise.

- ✓ Retail - Enhance Retail Shopping experience in Malls.
- ✓ Industrial - Remote Monitoring of Temperature and other Parameters in
- ✓ Healthcare - Enhanced Patient Health Monitoring with Alerts.
- ✓ Hospitality - Predictive Maintenance for Guest Rooms.

As System Integrators in the iOT space we bring agility and flexibility in standing up a pilot, provide application and managed services, deliver solutions while saving time, resources and ultimately cost.
